Drip Bar

AT THE MEDiSPA

Wellness from the inside out

Drip infusions (AKA Vitamin IV therapies) are a perfect way to give back to your body, mind and soul. We put ourselves to the test each day, whether it's through playing sports, working out, having one too many drinks, or just not drinking enough water.

Whether you get a drip a few times a week or once a month, you will be happy you did!

Drip infusions deliver nutrients directly to the bloodstream and makes them instantly accessible by the body for use, offering almost 100% absorption vs. oral supplements that offer 30-80%.

WEIGHT LOSS

All programs include menus and weekly weigh ins

Peptides may or may not be available depending on FDA regulation. Please check with the MediSpa and Body Shop for availability.

Semaglutide Tirzepatide

\$499 per month \$699 per month

A once-a-week simple and easy injection. The shots help with appetite, and also help stabilize blood sugar and metabolism.

How they work: decreases food intake, delays gastric emptying, reduces glucagon levels, increases insulin sensitivity, enhances first and second phase insulin secretion. This helps you feel full longer, so you consume fewer calories without feeling deprived.

How to get started

To find out if these medications are suitable for you it is as easy as 123.

Step 1 You must have current blood work panels, and there are specific panels that are needed. If you have current blood work panels call or text us and we'll take a look at what you have and see if it's what we need. If not, a blood work order can be given if you have insurance. Or you can have your blood drawn at the MediSpa, if you do not have insurance.

Step 2 After bloodwork panels are back, we will get you scheduled with an appointment to meet one with one of our nurse practitioners. Our nurse practitioners will go over the blood work with you and, if all is well, you can get started that same day.

Step 3 Three is maintenance; you take one shot weekly and that can be given at home or you can come in and receive it. Every three months you'll need to meet with the nurse practitioner again and in between you'll meet with one of our Weightloss Managers.

Basic Customized Plan

\$175 per month
